The Senate Passes the Pension Appropriation Bill.

THE TARIFF DISCUSSED AT LENGTH.

[illegible]

pleuro pneumonia bill would be taken up immediately after consideration of morning business to-morrow in order that it may be disposed of as soon as possible and give an earlier opportunity for consideration of the shipping bill.

Several senators, however, objected to displacement of the calendar, which would result from this arrangement.

The senate then passed a number of pension bills. Hoar gave notice that after the disposal of the pleuro pneumonia and shipping bills he would call up the Utah bill.

On motion of Cameron of Wisconsin, the senate took up and passed the bill to accept and ratify certain agreements with the Sioux Indians and grant the right of way to the Chicago, Milwaukee & St. Paul Railway company through the Sioux reservation in Dakota.

On motion of Cameron of Wisconsin the senate took up and passed a similar bill to accept and ratify certain agreements made with the Sioux Indians and to grant the right of way to the Dakota Central Railway Company through the Sioux reservation.

The chair laid before the senate the pleuro pneumonia bill, so that it may come up as unfinished business to-morrow.

EXECUTIVE SESSION.

WASHINGTON, April 22.—The senate was in executive session to-day three hours, having under consideration the recommendation of the president that Collector Wicker of Key West be removed. The issues were both of facts and methods. It was maintained by Wicker's friends that he had done nothing to merit removal, while others contended that his acts of open sympathy with the Cuban insurgents were ample ground for dismissal. Thereupon the senate adopted a report advising the dismissal of Wicker.

Nomination: O. C. White, postmaster, Carson City, Nevada.

CONGRESSIONAL CHIT-CHAT.

TARIFF TALK.

WASHINGTON, April 21.—[Special.]—The tariff bill will be taken up in the house to-morrow, unless some unexpected contingency arises to prevent its consideration. Champions of the bill are still hopeful of its ultimate passage, although they admit that if a vote could be taken now upon striking out the enacting clause of the bill it would be carried. At a meeting of the ways and means committee to-day the subject of the time to be consumed in the general debate was discussed. Democratic members of the committee wanted two weeks at least of discussion before taking up the bill for amendment, when a motion to strike out the enacting clause will be in order. Morrison said, however, that before any decision was reached he wished to confer with the speaker and other friends of the bill, so the subject was dropped.

Mr. Carlisle intends to make a speech in support of the bill before the general debate ends. Great expectations are cherished of this speech. The speaker not only thoroughly understands the tariff but he is a clear and forcible orator, and will do all in his power to win the votes of the protectionist democrats. His speech when the bill to create the tariff commission was pending before the house has had the largest circulation of any speech on this subject ever delivered by a democrat in congress.

Joseph D. Weeks of Pittsburg, secretary of the Western Iron and Steel Association, is in the city. He has been looking after the prospects of tariff legislation this session and says: "I do not think that the Morrison bill can pass, and yet I should not be surprised if it did. Influences at work in favor of the measure are very strong. So far as the political consequences of agitation and the passage of the bill are concerned I care very little what is done, but discussion of the subject and the uncertainty which attends it has a powerful influence upon the manufacturing interests of my state."

THE CHINESE BILL.

WASHINGTON, April 22.—[Special.]—The Pacific coast delegation in the house held a meeting yesterday in anticipation that the committee on foreign affairs would be reached in the call of committees and that a motion would be made to suspend the rules and fix a day for consideration of the supplemental Chinese bill. It was arranged that [illegible] of Indiana would introduce a resolution fixing May [illegible] as the day and that short speeches in the fifteen minutes allowed under the rules should be made in favor of the bill by Lamb, Henley, Eaton of Connecticut and [illegible], but the committee was not reached and the bill therefore, unless unanimous consent can be obtained to entertain it, goes over for another month. As nearly every committee now has some bill to pass under suspension of the rules, progress is very slow. Ahead of the committee on foreign affairs are the committees on ways and means, judiciary and banking and currency. Each of these has important bills. Therefore the prospect of reaching the foreign affairs [illegible] Mr. Morrison, who has somewhat recovered from his tariff anger, [illegible] that whenever the delegation from the Pacific coast desired to take up the Chinese bill he would render all the assistance in his power.

A prominent southern congressman, speaking this afternoon of the Chinese bill and the crush of legislation, said: "The rules of the house, representatives are a disgrace to the American people, and the house itself is rapidly gaining the reputation of being the most useless legislative body in the world. Congress might as well adjourn. It can do nothing."

THE TRADE DOLLAR BILL.

WASHINGTON, April 22.—The senate committee on finance this morning took up and discussed the house bill providing for the retirement and recoinage of the trade dollar. An understanding was reached that if the bill is reported at all it should contain a provision similar to that in the original bill, which was stricken out in the house, providing that the amount of silver received under the provisions of the act should be deducted from monthly purchases of bullion under the present laws for the coinage of standard dollars. Objection was made to the bill that its operation extended over too great a period. It provides that trade dollars be received at their face value in payment of dues to the United States until the 1st of January 1886. This, it was urged, would give an opportunity to import all the trade dollars which have gone abroad and have been redeemed at their face value. It was suggested that stamped or marked coins be exempt from the provisions of the bill and that the time be limited to sixty or ninety days within which trade dollars should be redeemable. The latter proposal met with decided favor, and although no formal action was taken there is no doubt that if reported at all the time will be so limited as not to permit the importation of trade dollars which have entered into circulation in Asia. Final action was postponed for a week. From opinions expressed in the discussion it is not thought probable that the bill will be reported favorably.

THE FITZ JOHN PORTER BILL.

WASHINGTON, April 22.—[Special.]—Friends of the bill for the relief of Fitz John Porter are opposed to calling up the measure in the house until after the Chicago convention. While there is no authority for saying positively that the bill will be vetoed, the general impression here is that it will. At all events many of the president's friends advise that the bill be passed at as early a date as possible, in order that he may veto it before the national convention meets, their idea being that the veto of the bill will help him in the convention. Only two members of the cabinet, Frelinghuysen and Brewster, advise approval of the bill. The other cabinet officers, among them Teller and Gresham, who are supposed to have the greatest influence with the president, strongly urge that the measure be disapproved. It is understood that the principal reason upon which the veto message will be based is that congress has no [illegible] power to reverse the findings of a duly approved court martial. This point was urged in vain upon the senate by General Logan at the last session of congress, when he had delivered his three days' speech against Porter. The fact that the president pardoned Porter as a private citizen is not regarded as at all binding upon him to approve the act of congress restoring Porter to the army.

CONVICTS IN NEW MEXICO.

WASHINGTON, April 22.—[Special.]—Senator Harrison yesterday presented a memorial from the board of trade of Santa Fe, New Mexico, asserting that the memorial to congress from the Albuquerque board of trade is false and without foundation. The latter memorial preferred charges against the territorial officials and the late legislature, alleging that the latter was corrupt, and asking congress to annul all laws passed at the late session. The memorial presented by Harrison to-day, however, asserts that all this is false and that the territorial legislature enacted many necessary laws, the annulment of which would be a calamity to the people of New Mexico. The statements of the two sections and the alleged corruption of the territory will be investigated by the senate committee on territories, to which they were referred.

THE WORLD'S INDUSTRIAL EXHIBITION.

WASHINGTON, April 22.—Director General Burke was heard by the appropriation committee of the house to-day on the bill for the loan of $1,000,000 to the world's industrial exhibition. He stated the original act indicated that cotton would be the chief exhibit, but provision was made to include all the arts and manufactures and products of the soil and minerals. Reference was made to the importance of the exposition in opening new lines of trade for manufacturers and stock raisers in Mexico, Central America and the West Indies. A sub-committee has been appointed to consider the bill.

THE SILK CULTURE BILL.

WASHINGTON, April 22.—[Special.]—General Rosecrans yesterday introduced a bill in the house to establish a silk bureau, as a branch of the interior department, with branches in Pennsylvania, Florida, Texas, Iowa and California. It appropriates $150,000 to start the enterprise. It provides for filature and reeling schools, and appropriates $25,000 to each of the stations. The same bill was introduced in the senate by Call of Florida some weeks ago, and one by Senator Morgan is pending before the senate committee on appropriations.

AN APPEAL TO COAST MEMBERS.

WASHINGTON, April 22.—[Special.]—All members of the Pacific coast delegation in congress have received a letter signed by the governors and officials of Arizona territory asking them to assist in obtaining an appropriation for the world's fair to be held at New Orleans in December next.

Petroleum V. Nasby.—[Mr. D. R. Locke, Petroleum V. Nasby, editor Toledo Blade, writes: "I had on a forefinger of my right hand one of those pleasant pets, a run-round. The finger became inflamed to a degree unbearable and swollen to nearly twice its natural size. A friend gave me HENRY'S CARBOLIC SALVE and in twenty minutes the pain had so much subsided as to give me a full night's rest, which I had not had before for a week. The inflammation left the finger in a day. I consider it a most valuable article."

SERIOUS TROUBLE WITH MEXICO THREATENED

The Irish National League of America Appeals for Funds—Jay Gould Interviewed—The Events of a Day.

Another Interview with George.

NEW YORK, April 22.—[Special.]—Henry George, being interviewed, said: "I have been from England and Scotland making speeches on the land question. There is now a very strong movement in England and Scotland to restore land to the people. My meetings have been enormously successful and enthusiasm has been aroused everywhere. The fact that I could not get a hall to talk in a second time I went to London is proof of how afraid the government is of land agitation. The Scottish land restoration league grew out of my early meeting. It has now numerous branches. Leagues of the same sort flourish in England. The franchise bill is a good thing. It has passed the second reading by a very large majority, all the Irish members supporting it. How soon the bill will become a law depends upon the house of lords. Its provisions will benefit three countries. It will add two million voters to the kingdom and will give the agricultural people suffrage. The liberal party of England opposes it because it includes Ireland. They do not much like Ireland. The franchise bill will be followed by a redistribution bill to equalize the distribution of electoral power. Just as soon as these bills are passed the question of restoration of land will be a burning topic in Great Britain. Broadhurst's bill to turn the leaseholders into freeholders, and Bryce's bill to give the public free access to uncultivated lands are excellent measures that parliament is now considering."

The Summer Rush to Europe.

NEW YORK, April 22.—[Special.]—The wonderful passage of the steamer Oregon is the theme of comment at the hotels and in the newspapers. All the prominent steamship companies report a large increase in the prospects for summer travel over this time last year. A majority of the passenger lines have berths for passengers engaged as far ahead as August for persons sailing from this side. Some of these steamers, which sail in June and July from here, have almost every berth engaged, and applicants are turned away on account of the inability to get desirable berths. The chief contestants for travelers who demand speed above all other considerations are the Cunard and the Guion lines, which have entered into fierce competition both as regards the number of passengers carried and the speed of steamers. The Guion line boasts of its three swift ships—the Alaska, the Arizona and the Oregon—and the Cunard people are equally proud of the Gallia, the Servia and the Aurania. The latter steamer is expected to pull down the Alaska's best time on record of six days, eighteen hours and thirty-seven minutes from New York to Queenstown, as well as the six days and twenty-two hours record which the Alaska holds from Queenstown to New York.

Trouble Brewing With Mexico.

GALVESTON, April 21.—The News' Laredo special says: American capital has no safeguard in Mexico at present. Recently the newsboys on the Mexican National railway, running out of Laredo into Mexico, were put off of the train with their American publications because an article in the papers did not suit the powers that be. The costly and magnificent club and hotel buildings erected by the construction companies of Jay Gould's extension of the International road into Mexico have been seized and appropriated by the civil authorities of New Laredo because of an alleged failure to comply with the general government [illegible] on the Mexican National railway between Laredo and Monterey, [illegible] on the trip to the latter point put off the train an American who was traveling without ticket or pass. On his return to New Laredo he was arrested and placed in jail and to this time had not secured a release.

The Hard Times in England.

NEW YORK, April 22.—[Special.]—A cable from London says: The situation of the mercantile market in England says: "The depression amounts almost to paralysis. The destitution and suffering of unemployed men are on the increase. Public subscriptions are being organized at Newcastle-on-Tyne, Liverpool, Hull and Sunderland for these men. The condition of affairs here would probably be as bad if the people were burdened by similar excessive tonnage. There has been no increase in the grain movement from Atlantic ports during the week. Liberal stocks abroad and higher prices here combine to check any tendency that way."

No Irish Need Apply.

NEW YORK, April 22.—[Special.]—The steamship Nevada, which arrived yesterday, brought 411 Mormon immigrants in the steerage and twenty-two Mormon missionaries in the cabin. Rates continue nominally steady, though neither Sutton nor Van Vleck are permitting opportunities to pass and will abate regular rates when brought into direct competition. Charter rates remain about $7.50 to [illegible] cent. There is some inquiry for tonnage for case petroleum at about the former rates.

PHILADELPHIA, April 22.—One hundred men were discharged from the Baldwin locomotive works last Saturday. A member of the firm to-day said this was done because other work came in the reduction would continue until the present working force of 3000 was reduced to about 2000. Great Damage Done in England by an Earthquake Shock.

THE GOVERNMENT DEFEATED IN PARLIAMENT

Interesting News from the Soudan—The Invincibles at Work at Dublin—Affairs in China, Etc.

LONDON, April 22.—At 9:30 this morning an earthquake shock of considerable force was felt in the eastern counties of England. The effects in Essex and Suffolk were those of the greatest disturbance. At Ipswich the shock was so severe that walls of houses were perceptibly shaken, plates were rattled and bells rang. The people were thrown into such a state of consternation that business for the time was suspended. The shock was still more severe at Colchester. The concussion lasted half a minute. The first symptom was a deep rumbling sound, awe inspiring, speedily followed by the quaking and shaking of all the buildings. Church bells sounded as though swayed by unseen hands. Tall chimney stacks of factories crashed to the earth and other lofty structures were tottered. The spire of one of the largest churches in the city, 150 feet high, fell with an awful crash to the ground.

It is impossible to estimate the amount of damage, but it is known to be great.

GREAT ALARM AND CONFUSION.

In private houses the greatest confusion prevailed. Chairs and tables were overturned, china and glassware rattled together and frequently shattered, while pictures and other ornaments upon the walls loosened from their fastenings and fell to the floor. People were terror-stricken. Men, women and children rushed shrieking into the streets, where their agonized cries and pale faces made a most painful and impressive scene.

At Chelmsford, about thirty miles from London, the shock was also severe and people were filled with terror and dismay.

At South End the earth trembled for miles around, windows in many dwellings were broken, chimneys dashed to the earth and crockery and glassware smashed.

At Walden, ten miles from Chelmsford, the town hall and private houses were swayed several times.

The wave passed from north to south.

The *Globe* says the shock was felt in the Strand, London. A business house there was perceptibly rocked, so much so that the employes were affected and rushed into the streets.

The duration of the shock at Ipswich is estimated at three seconds. The earthquake has caused a general feeling of alarm and insecurity throughout England.

BUILDINGS BADLY SHATTERED.

Colchester was the center of the greatest disturbance. It is impossible as yet to determine the extent of the damage. In some streets traffic has been forbidden for the present as buildings have been so badly shattered that they are considered dangerous. The [illegible] house near Colchester was shaken [illegible] there were numerous [illegible] of the earthquake. The [illegible] instruments were shaken. The shock was distinctly felt in Chelmsford and Fleet street. At Ipswich a [illegible] was battered, and the railway depot partly [illegible].

THE SINKING FUND ACT.

The Committee on Pacific Railroads Concludes Consideration of Proposed Amendments.

WASHINGTON, April [illegible].—The house committee on Pacific railroads to-day concluded consideration of [illegible] amendments to the Thurman sinking fund [illegible] to the revision of the act to the [illegible] the Central branch of the Union Pacific railroad. The secretary of the treasury is authorized to invest the sinking fund of each subsidized company in bonds of the United States, in bonds of the company or he may with the assent of the companies apply the same to the extinguishment of interest [illegible] of the government [illegible] any time it becomes necessary [illegible] to meet any of the debts or obligations of said corporations.

This third amendment requires each of the roads to pay 5 per cent of their net earnings into the sinking fund instead of 25 per cent, as now required. The percentage was at first fixed by the committee at [illegible] per cent, but was reconstructed with the above result.

The fourth amendment relates to money due by the government to the roads for transportation [illegible] the payment of the interest to the sinking fund [illegible] the courts have practically decided [illegible] with interest, is about $100,000 [illegible] repaying this money to the companies [illegible] that it shall be paid into the sinking fund and be used [illegible] to the extinguishment of debts prior to it, so that the government thereby increasing the security of the company [illegible] the government [illegible] rate of application [illegible] to the sinking fund.

SALEM, April 22.—[Special.]—Yesterday at the adjourned term of the circuit court, Hon. R. P. Boise presiding, was tried the case of John N. Crawford vs. Linn county and George Humphrey, sheriff. The object of this suit was to enjoin the collection of a tax assessed under the mortgage tax law on the ground that such law violated the constitution of the state in that it is a special law levying a tax and lacks equality and uniformity, being the same questions lately passed upon by the U. S. court of Oregon. His honor Judge Boise promptly decided that the law is constitutional and that the decision of the supreme court in Mumford vs. Sewell concludes both questions. D. F. Wolverton appeared for the plaintiff and W. R. Bilyeu, R. S. Strahan and Judge Burnett appeared for the defendant. The case will at once be appealed to the supreme court.

THE CHARGES AGAINST SWAIM.

A Court of Inquiry Appointed to Investigate the Matter.

WASHINGTON, April 22.—On the 15th inst. A. E. On the following day he withdrew his charges, stating that Swaim had settled his financial claims. The first one was referred to General Swaim by Secretary Lincoln for such remarks as he might desire to submit upon the allegations made. General Swaim made a communication and further applies he may desire to make. General Swaim the same day [illegible] but did not accept the hint to apply for a court of inquiry. WEDNESDAY MORNING, APRIL 23, 1884.

A NATIONAL PILOT SYSTEM.

Since the constitution of the United States confers upon congress the power to regulate commerce, there is no reason why the general government should not take upon itself the regulation of the pilot service of the country. The general government alone can make the service fully efficient and the rates uniform and low. By taking the pilot business out of the hands of the states a most important service may be rendered to commerce; certainty and efficiency may be substituted for the capricious and inadequate methods of local management; commerce will be freed from the burdens placed upon it by lobbyists about our legislatures, and low charges may be expected, because the government can afford them.

On the 10th of March a bill was introduced in the senate by Mr. Bayard of Delaware "to create and establish the pilot service of the United States, and to regulate the pilotage of vessels in ports and harbors along the sea coast of the United States." The bill was read twice and referred to the committee on commerce. It ought to be enacted into a law, as it makes provision for just such relief as the commerce of the country demands.

The bill provides that stations for pilots shall be arranged in six separate classes, regulated by depth of water in the port or harbor where the station is located; and a pilot station shall be established at such place in every port or harbor in the United States where the principal custom house, if there is one, or the principal city or town of such port or harbor, is situated. In all ports or harbors which receive vessels drawing over twenty feet of water there shall be first-class stations, to be supplied with pilots of the first class. Stations of the second class are to be established at ports which receive vessels drawing not over twenty feet; of the third class not over seventeen feet; of the fourth class not over fourteen feet; and of the fifth and sixth classes not over eleven feet. The pilots to be divided into classes to meet the above classification of ports, and are to be paid by the United States—there salaries being graded according to class. Apprentices are to be appointed for each pilot station, sufficient in number to insure a full supply of pilots for each. A board of examiners is to be appointed for each station, to consist of three persons, through whom pilots' commissions must be obtained. Government is to provide suitable boats, steamboats or other vessels for the service.

The rates of charge for pilotage are to be fixed by the secretary of the treasury. For all vessels sailing under any other flag than that of the United States there shall be one rate; and rates for vessels of the United States shall in all cases be one-third less than those for foreign vessels. Rates once established shall continue until the same shall be altered or changed by the secretary or by act of congress. And any sailing vessel taking and having the aid or towage of a steam vessel into or out of any port or harbor, such steam vessel being in command of a licensed steamboat pilot, the master of such sailing vessel shall not be compelled to employ or pay for any other pilot.

It is probable that the charges for pilotage under this act would be fixed at very low rates, thus virtually relieving commerce of one of its considerable burdens. Provision is made in the bill for paying all expenses out of a fund to be annually appropriated out of the treasury.

LAND GRANT OF THE CASCADE DIVISION.

A Seattle paper would have THE OREGONIAN push the demand for forfeiture of the Northern Pacific land grant. We may suppose it means the grant upon the Cascade mountain division. There is just one principal reason why THE OREGONIAN does not join in this demand. That reason has been stated heretofore, but we will state it again.

A large number of people in Washington territory, both east and west of the mountains, want this division of the road built as quickly as possible, and they maintain that the chance of building it will be destroyed if the land grant is taken away. Should THE OREGONIAN demand forfeiture of this portion of the grant all these people would say at once that its purpose was to hold the entire country for an indefinite period under tribute to Portland. Withdrawal of the grant would be denounced as a scheme of Portland's selfishness, and the outcry against the monopoly which "the seaport on the creek" was attempting to maintain would be louder than ever.

But in fact, as Portland fears no competition, she can afford to be magnanimous. This is the key to the action of her board of trade upon this matter. Of course the railroad company has no legal claim upon this grant, and can have no equitable one till it builds the road. The question is simply whether the good of the country requires the grant to be cancelled, or not. Washington Territory journals may very properly take sides upon this question. For THE OREGONIAN to do so would be considered an intrusion; and if it advocated forfeiture, would bring upon itself the criticism above indicated. It has, however, advocated forfeiture of the grant between Portland and Wallula; and here it will say again that the company ought to relinquish at once its claims to lands in a locality where it knows it never will build a road.

An act of gross injustice has been done to Hon. Allen Francis, consul of the United States at Victoria. Without his consent he has been appointed consul at St. Thomas, Ontario, and the consulate at Victoria has been given to Robert J. Stevens, long a clerk of a committee of the house of representatives at Washington. It seems that Stevens, who was out here a year or two ago, took a liking to Victoria as a place of residence, and so conceived the idea of crowding Mr. Francis out. By representing that the latter was willing to make the change he succeeded in effecting the arrangement to transfer him to St. Thomas, a position of less dignity and less salary, and got the appointment to the more desirable place for himself. Not till the transaction had been consummated did Mr. Francis learn anything about it. It is a dirty piece of business on the part of Stevens, and he ought not to be permitted to have the office. Mr. Francis has performed his duties at Victoria during many years to the entire satisfaction both of his government and the people of the province. The office has not been a profitable one, and the slender means which Mr. Francis possessed have been invested there; and as he owns a little house at Victoria he is able to live there, but could not afford to live at St. Thomas. As a testimonial of their esteem the people of Victoria have sent to Washington a large petition asking that he be permitted to remain. He is past seventy years of age, and for this reason as well as on account of his faithful service, is entitled to consideration and protection against the greed of office-seekers.

The postal revenue receipts of the current year, however the matter may be viewed by the department officials, signally confirm the wisdom of the congressional action which reduced letter postage from three cents to two cents. The total postal receipts of this year, estimated, will be $43,262,446, against $45,508,692 last year—a falling off for the present year of $2,246,246. "This is serious," say the officials who glory in large gross receipts—"a loss of almost 5 per cent. [illegible] on an increased business!" Yes, it is that; but, also, it is this: A saving of 33⅓ per cent. in the postal expenditure of all the people who write letters. Viewed in this way the law of reduced postage is a great public benefit, secured at a cost which in comparison with the good it involves, is not worth speaking of. Within three years at the utmost it is reasonably certain that with the two cent rate the postal service of the country will be fully self-sustaining.

THE OPIUM HABIT.

The statements of wholesale dealers and manufacturers, as well as physicians, show that the use of opium is increasing with alarming rapidity in this country. From 1876 to 1880 there was an increase of 140 per cent. in the importation of crude opium. In 1876 there were estimated to be 200,000 opium eaters in this country, two-thirds of them being of the well-to-do classes, and since then the number has more than doubled. A large proportion of these slaves of the opium habit do not seek the drug because of the pleasant stimulant or intoxicating effects it produces, but because it has been given to them as a medicine to alleviate pain. In this way they have become mentally, morally and physically bound to its use. The increase in its consumption has followed closely the use of the hypodermic syringe, an instrument which was not much employed twenty years ago but which is now considered as necessary as any instrument a doctor has. The number of preparations in which opium is used is increasing annually. It is an important ingredient in a large number of quack and patent medicines, McMunn's elixir is chiefly indebted to it for its boasted effects, and Mrs. Winslow's soothing syrup contains large quantities for infants' heads and stomachs. The sale of opium and its various compounds by druggists is practically unrestricted, although the opium habit is well known to be of the most fatal character. The drug appears to attack not merely the nerve tissues, but the moral susceptibilities. It suspends the will power, enfeebles conscience and blunts or obliterates all the higher instincts of man's nature. Opium eaters are habitual liars. They seem to be incapable of telling the truth, and physicians say they will sometimes scheme for days to get up some stupendous and purposeless lie. Fashionable ladies who desire to appear brilliant in society, and overworked professional and business men are among those who are most subject to the opium temptation. Many physicians are beginning to recognize the fact that the free use of the hypodermic injection is very reprehensible, but members of the profession do not sufficiently realize that the alarming increase of the opium habit is so largely due to its indiscriminate and careless use as a drug to alleviate pain. It should never be touched without the recommendation of a reliable physician, and medical men can not be too careful about putting their patients in the way of contracting the deadly habit.

Of all those who have fallen under the power of this habit, Thomas De Quincey alone owes to it the augmentation instead of the impairment of his reputation. His "Confessions of an Opium Eater" opened for him the doors of fame and made known to the world his rare and delicate personality. Such was the peculiarity of his physical constitution that his daily dose of "eight thousand drops" did not prevent his reaching the age of 75 years, nor interfere with his walk of fourteen miles, which he took every day until he had nearly reached three score and ten. He was scarcely twenty when some chance adviser recommended him to try opium as a remedy for toothache. He took it and "in an hour," he writes, "what a revulsion! what a resurrection from its lowest depths of the inner spirit! What an apocalypse of the world within me! That my pains had vanished was now a trifle in my eyes; this negative effect was swallowed up in the immensity of those positive effects which had opened before me in the abyss of divine enjoyment thus suddenly revealed. Here was a panacea for all human woes; here was the secret of happiness about which philosophers had disputed for so many ages, at once discovered; happiness might now be bought for a penny and carried in the waistcoat pocket; portable ecstacies might be had corked up in a pint bottle, and peace of mind could be sent by the mail." But De Quincey, like all inebriates, was doomed to see the reverse side of this picture to find anguish in the place of ecstasy, and despair where he had looked for peace. The time came when "the just and subtle and all-conquering opium," which he had celebrated as "giving a respite from the secret burdens of the heart," showed him its reserved horrors and wrung from him this lamentation: "But now farewell, a long farewell to happiness, winter or summer! Farewell to smiles and laughter! Farewell to peace of mind and to the blessed consolation of sleep! For more than three years and a half I am summoned away from these. Here opens upon me an Iliad of woes." Among these woes must be included that impairment of the will power to which we have referred as one of the moral effects of opium. Poor De Quincey, like Coleridge, that other great opium eater of his day, became at last so dreamy and befogged, so hopelessly confused in all practical matters, that he seemed incapable of resolute and sustained activities. But his conversation continued to flow on to the last, in a copious stream, as though mere talking were the chief end of man. Not even when, on a cold winter's night, he was being escorted through the streets of Edinburgh by two bailiffs on a warrant for debt, did he cease to exercise his colloquial powers, and his astonishment and disgust at his failure to interest his captors called from him an unusual outburst of vituperation. "Unideaed wretches!" he exclaimed, in describing this adventure to one of his friends, "I tried them on every subject under heaven but they did not seem to have a thought in their minds unconnected with their base and brutal profession."

FRUIT DESTROYERS.

For the past ten years the agricultural journals in California and this state have been filled with articles upon the ravages of curculio upon plum trees and of phylloxera upon grapevines. But we have yet to see any reference made to the destruction of cherries by birds. Indeed, seventeen men out of twenty will tell you that there are no fruit-destroying birds, but that the feathered songsters visit the trees to eat the bugs and other insects that would otherwise destroy the fruit. Some writers affirm that quail will not eat ripened grapes, but that is incorrect. The quail will eat grapes, but not until they have first eaten off all the bugs that menaced the security of the vines.

Yesterday an engineer on one of the east side trains brought to this office two specimens of a so-called "cherry bird" that is doing great damage to fruit trees in the vicinity of Albany and Lebanon. This bird (both of the specimens were females, by the way), were of the linnet family and not unlike the song linnet of the upper Sacramento valley, though a larger and more plump-looking bird. On opening the crops of these two birds they were found to contain no insects whatever, but were filled with young cherries from which the blossoms had just dropped off. One bunch which had contained eleven blossoms had all but two cut off by the sharp, horny beaks of these birds as cleanly as if snipped with a pair of scissors. Another cluster had lost fourteen out of eighteen, and a third had been plundered of sixteen out of twenty one. These specimens of plundered cherry trees came from the orchard of Mr. Abe Irvin of Lebanon, and if this is anything like an average specimen of fruit destruction throughout the valley, we don't wonder at men saying that it "don't pay to raise cherries in Oregon."

Several years ago the grape growers of Los Angeles found the quail too abundant for them, and began hiring men and boys to kill them off. As the home market could not consume them all as fast as killed, one of the fruit canneries commenced canning these quail for sale as an article of food. This enabled the grape growers to get the birds killed off at a moderate price; but soon there were no quail, and then the grapes suffered worse than ever from insects of all sorts. Hence it was decided that the quail saved more grapes than they destroyed, and it was best to let them alone.

But in the case of these linnets, there is nothing to be said in their favor, as they are so small as to be not worth the picking, and therefore valueless for food. They can be killed, of course, by guns loaded with very small charges of powder and shot, but it is an expensive process, and the ammunition will cost as much as the cherries will sell for, if not more. Perhaps some one will be ingenious enough to devise a plan for frightening them out of the orchards during the day, which is their only feeding time. The small boy of the period, with his bunch of Chinese fire crackers, might be pressed into the service at a trifling cost; or, perhaps, the Chinese priest, with his red robes and copper gong, might be induced to take a hand in "the game he did not understand." Now is the time for somebody to speak out, or the fruit will not be allowed to ripen.

It is probable that a majority of the republicans of Oregon prefer Mr. Blaine for presidential candidate over any other. No doubt he would carry the state. But Oregon will unquestionably cast her vote for any candidate whom the republican national convention may name. But, as the Minneapolis *Tribune* says, "New York, Ohio and Indiana must be considered. If Blaine can carry those commonwealths he can carry the rest of the north like a whirlwind; but at the present date no one is authorized to say just how strong Mr. Blaine is in those states which will turn the scale."

BILL'S INVESTIGATION.

IN ATTEMPTED DEFENSE, HE TELLS ANOTHER VERY AWKWARD LIE

Only One of His Witnesses on Hand and He Throws But Little Light on the Disgraceful Confession

The council committee on judiciary and city attorney appointed to consider the mayor's communication removing the chief of police met again last evening.

The chief was represented by Sidney Dell. Of all the witnesses summoned only Dr Harry Lane put in an appearance.

On inquiry it was ascertained that Policeman Ward had served subpœnas on all for whom they were issued except Besser who could not be found. He had not however, tendered any of the parties a fee on which account they were not obliged to be present. In regard to Besser it may be stated here that he was not expected to be present as he stated during the day to a friend that he was not coming saying that he had a character to maintain and had to draw the line somewhere and he drew it right here. He was not going to be mixed in with such a crowd of witnesses. Some uncomplimentary remarks concerning the untruthful nature of the chief's statements and his character as to temperance were added.

As Dr Lane was the only witness convenient the committee proposed to hear what he had to say.

Mr Dell said that he had prepared a statement of what his client was prepared to show and accordingly submitted the following:

Mr Chairman and Gentlemen of the Committee—In order to a clear understanding of the line of defense of W H Watkinds against the charges preferred by Mayor Chapman in his order of removal submitted to your consideration I beg to state as follows. That we expect to prove

1 That Mr Watkinds did not state before the persons named that he had paid the mayor any money for his appointment to the office of chief of police.

2 He did not state that any one else had paid the mayor any money by his consent for that place.

4 That he did intimate that the mayor had fraudulently obtained some money out of the city treasury on the pretense made after Mr Watkinds' appointment that he was to receive $1000 for that appointment.

4 That Mr Watkinds at the time of his appointment and prior thereto had no bargain or agreement for any money consideration with the mayor for said appointment.

5 That the mayor was and ever since Mr Watkinds' residence in Portland has been the family physician and friend of Watkinds; that Watkinds had helped elect him to the office of mayor and both before his election and afterward and before and after the subsequent election of Councilman Sears Dr Chapman had declared his obligation and his great desire to appoint Mr Watkinds chief of police and did appoint him without any promise, agreement or understanding that any money was to be paid therefor, and as Mr Watkinds supposed at the time, on the impulse of friendship and previous obligation.

6 That in seeking to make the way smooth for Mr Watkinds' nomination it turned out that the mayor was under some secret control of Mr Thomas Connell and Mr L Besser assisted in disposing of that difficulty and in getting Connell's consent after Connell's rejection by the council.

7 That after Watkinds was confirmed Mr Besser who had befriended him as aforesaid brought to him a note for $450 due in forty days from July 25 1883 in favor of Sol. Hirsch and signed by Besser and asked Watkinds to sign it as surety as he wanted to raise some money. And Watkinds thereupon signed the note, not knowing at the time but what it was for Besser's own private use.

8 That after Watkinds' return from the east he discovered from clerk Besser's account that he had paid $250 on that note out of the city funds and upon inquiry was told by Besser that the $3 0 and $160 more had been paid to Chapman as a part of $1700 which Chapman said should be paid for the appointment.

9 That Watkinds repudiated the demand and went to Mayor Chapman who admitted having received the money and demanded the balance of the $1000 which Watkinds would not pay him.

10 That Mayor Chapman has been making constant demands upon Watkinds for money as the price of his continuance in office, and Watkinds has steadily refused to comply and the result was the recent nomination of Mr Parrish, after Councilman Andrews had been persuaded to vote for the appointment.

A broad smile was on the countenance of nearly everybody present at the conclusion of the reading of this document as characteristic of the chief.

Mr Dell stated that the chief was sick and not able to be present. He had supposed that the other witnesses would be present. Dr Lane had been attending him.

Dr Lane stated that the chief had been under his care for two weeks. The committee might remember that he was not to be seen for several days a week or so ago (about the time an investigation was on hand). He was not as well now as he had been.

Mr Adams said he would like to have Dr Lane testify. The investigation must end this evening as far as he was concerned.

Policeman Ward here came in and returned the subpœnas he had served and in answer to inquiry said he had not tendered fees.

Mr Dell said he had not supposed that Mayor Chapman would stand on fees.

Mr Adams—That is what you have served him of standing on.

Dr Lane was put on the stand and Mr Dell asked him to state if prior to Mayor Chapman's proposed trip to California some months ago he had heard a conversation between him and the chief of police in regard to the mayor receiving any money which came out of the city treasury.

Dr Lane—I did. It was the day the old Doc was going to start for San Francisco. Bill [Watkinds] came up and asked him if he was going. He said he was. Bill did not seem anxious to have him go. He said he did not think it was serving him right. He had heard that it was a put up job on him and that Doc was going to stay over his time. Doc replied that nothing would occur while he was gone any more than if he stayed here. Bill was not satisfied; he did not want Chapman to go. Doc said he did not think Bill served him right by going off to Texas when he was in trouble. During the talk Chapman accused Bill of making some damaging statements in regard to him. Bill said "There is no use of mincing matters or dodging the issue. There was $500 gone when I came back. You got it out of the treasury and I had to pay it back." Doc denied the charge. Bill said "You know better and I know better. You know you got the money." To this the old man made no reply.

Mr Dell—Did not the doctor reconsider his determination to go San Francisco and remain here?

Dr Lane—Yes.

Mr Dell—Do you know anything about his borrowing $1500 to pay back what he got to induce him to go off to San Francisco?

Dr Lane—Only what I heard. I have no personal knowledge.

Mr Dell—That is all I expect to prove by Dr Lane.

In answer to a question by Mr Adams, Dr Lane said: At first I think Doc objected to Watkinds' statement that he got $500 but afterward Bill insisted on it and Doc said nothing. I have heard no conversation between them since that time. I heard nothing about any other money. Bill said nothing about paying for his position. I heard no threats made about Doc going to San Francisco. Bill said it would not be treating him right and he advised Doc as a friend not to go.

Mr Dell—Did you understand this to be a threat?

Dr Lane—I looked on it in that light.

Mr Dement wished to know what was the chief's ailment. Dr Lane said it was what was called nervous prostration. In his present condition it was not safe for him to leave the house. He would be all right in two days—(after the council meeting is over.)

Mr Dell then urged on the committee the propriety of reporting to the council the necessity for his client having more time.

Mr Adams said it looked like an attempt to delay progress. No fees had been tendered witnesses and only one had appeared.

Mr Dell disclaimed any desire to delay proceedings.

Mr Adams said that in his opinion there was no need of any further testimony. It was within the knowledge of the committee that Watkinds after his return from the east was upholding Besser after he must have known that the money was taken by him if the charge he made was true. He then asked Auditor Curry to bring forth Watkinds' pronunciamento delivered to the council shortly after his return from the east. The document was in the vault in another building and could not be produced at once.

Mr Adams then said the committee could not control the council but would prepare a report and submit it at the meeting on Wednesday night and the council could take what action they pleased.

Bill's Endorsement of Besser

There is a legend to the effect that once on a time a fellow named Tom Pepper was kicked out of hades for lying. As one follows up the trail of falsehoods which runs through Watkinds' communications to the council it would seem as if the fellow Pepper above alluded to must have dyed his hair [illegible] become chief of police of this city. According to Dr Lane's sworn statement Watkinds told Mayor Chapman that when he [illegible] from Texas from the celebrated [illegible] he found that Besser had a [illegible] [illegible] [illegible] [illegible] by his attorney last evening and given to full [illegible]

On the 6th day of November last, two weeks after Bill had returned from Texas and when, if all these statements are true, he knew all about Besser's taking money from the city funds he sent in a [illegible] to the council which among other [illegible] was [illegible] contained the following:

While absent from the city recently [illegible] body adopted a resolution removing my clerk [illegible] position which he was serving [illegible] [illegible]

[illegible] following resolution was passed [illegible] body:

Resolved, That the chief of police be authorized and [illegible] the [illegible] by the resignation [illegible] G [illegible] and [illegible] another suitable person appointed to fill such vacancy [illegible] salary [illegible] to be at the rate of $10 per [illegible]

In obedience to the authority thus granted to me by the above resolution I proceeded to appoint [illegible] to fill the position [illegible] [illegible] There were no charges [illegible] [illegible] acting as clerk he did his duty well in every [illegible] as far as I [illegible] or can ascertain.

MERCHANTS INDICTED FOR LARCENY

Charles Sweeny and Robert J Linden of Spokane Falls go over into Idaho to Avoid Trouble

A report obtained wide circulation in business circles yesterday afternoon that Charles Sweeny and Robert J Linden merchants of Spokane Falls, two young men well known here had fled the country and taken with them between $30 000 and $40,000 of the firm's money and that Portland creditors would attach the stock. As usual there were many to believe the report and regrets were expressed that two men with such bright business prospects should have thrown away all chances for the future. An OREGONIAN reporter who was detailed to run the rumor down and find out the facts learned that Sweeny and Linden have stepped over the boundary line into Idaho to escape arrest.

It will be remembered that some months ago the firm of Sweeny & Co was reported to have failed. Indeed one mercantile agency informed its patrons that their stock had been attached. This rumor grew out of the fact the Sweeny & Co had bought from one Schwartz of the firm of Brown & Schwartz of Spokane Falls goods to the amount of $3000 at less than their value. The transaction upon one side was made by Schwartz in the absence of Brown who was then in Portland. Brown telegraphed to Spokane Falls to have Sweeny and Schwartz arrested for conspiracy to defraud, but nothing came of it. The matter was dropped for the time being, but last week the case was investigated by the grand jury, Schwartz appearing as a witness against the men to whom he sold the goods. Indictments of grand larceny were returned last Saturday against Sweeny, Linden and a lawyer named C H Bradshaw. In some way the knowledge of the indicted parties and as they wanted to put the case off till the next term of court, Sweeny and Linden stepped over into Idaho. Court will adjourn this week when the young men will return and allow themselves to be placed under arrest.

The financial standing of the present firm organized two months ago is unquestioned, the several partners having ten times more assets to one of liabilities. Friends of Sweeny and Linden regard the transaction with Schwartz to say the least as disreputable.

AMUSEMENTS

LAST McALLISTER NIGHT.—To-night the [illegible] McAllister season closes with W S Gilbert's splendid comedy of Engaged. This will be the first opportunity to see Miss McAllister in a light character. Camille was given last night to a fair house and was an excellent performance, Miss McAllister receiving three calls to the footlights. To-morrow morning the company leave for the Sound and Victoria.

THE TIVOLI.—Large audiences greet "The Chimes of Normandy" nightly and the opera seems good for a two weeks run at least.

PATIENCE. To-morrow night we are to have the opera of Patience with local talent. Enough tickets have been sold to pack the house for the four performances.

THE STRATEGISTS.—Haverly's Comedy Company leave San Francisco by to-morrow's steamer and play in Astoria Saturday night next, opening here the following Monday for one week. Press notices from New York to San Francisco are all praise concerning Our Strategists and those who like to laugh may prepare for such a season as Portland has not had since the John E Owens engagement.

BRIEF MENTION.

The Columbia arrived here at 3 o'clock yesterday afternoon.

The row of new buildings corner Fourth and Yamhill will be one story frames not a three-story brick.

W T B Nicholson a juror in the state circuit court was yesterday excused for the remainder of the term.

Will G King grand lecturer of the Good Templars will deliver a lecture to-night at Nonpareil hall under the auspices of Nonpareil lodge I O G T.

The Sunday school of the Baptist church will give a concert and social to-night. A very interesting programme has been arranged. Admission 25 cents, children 15 cents.

The statement in the *Evening Telegram* that the foundry of John Honeyman & Co had been closed was a mistake. The foundry has not been shut down and Messrs Honeyman & Co have not the remotest intention of stopping work.

PROCLAMATION.

To the Hustlers from the West

You came to Oregon to make money. Of course you did. The chances are good you'll make it but they are no where else so good as at

LACAMAS

The new manufacturing town located on the Columbia river fourteen miles east of Portland. There is room for traders in all lines, for manufacturers, speculators, farmers, dairymen and everybody else.

Take notice that this is not a town site boom got ten up on some future railroad or terminus speculation but it's a actual development of a splendid water power by moneyed men for the money there is in it and that work has been going on for a year.

To control the water a few thousand acres of farm lands had to be bought. This the water power company does not desire to keep and it is offered for sale in lots to suit. Hundreds of thousands of dollars are to be invested immediately in various manufacturing enterprises to use the water power. A paper mill now being built will employ 150 hands. A saw mill and a grist mill will bring the trade of a large and fine agricultural country. There is room and opportunity to develop a real western town of 10,000 inhabitants in a few years.

This is an advertisement of course but if you'll come and see me I will prove to you it's no humbug and show you a way to make some gold dollars and a home.

Take the steamer Dixie Thompson at the foot of Ash street or the Calliope at the foot of Morrison street Portland. Fare $1.

REPUBLICAN PRIMARIES.

Over 2000 Votes Cast Yesterday Afternoon—The Regular Ticket Chosen Almost Without Opposition

Yesterday between the hours of 4 and 7 P M primary elections were held in this city to choose delegates to the republican county convention to be held in this city Saturday, the 26th inst. Only two tickets were in the field, Sears having decided to make no fight for a renomination for sheriff. Caywood got out a ticket but it was evident from the start that it was no go. It was headed Unpledged Republicans. There was very little excitement yet 2000 votes were cast. It may interest [illegible] to know that this is 500 votes more than their party polled at the general election. If 2000 republican votes are brought out at a primary how many will a general election bring out?

SIXTH PORTLAND

The Caywood ticket developed more strength here than in any other precinct, and some very good work was done against the regular ticket. Some objection was raised to the clerk not keeping a poll list but merely making a tally for each vote cast. The regular ticket received 335 votes, the unpledged ticket [illegible]. Following are the tickets:

Regular	Unpledged
I A Strowbridge	J F [illegible]

I F Morey	W Thomas
M Bell	J T Atwood

WESTERN

There was very little opposition to the regular ticket which received 204 votes, the unpledged getting 34. Following are the tickets:

Regular	Unpledged
Geo H Flanders	R Irving
A W Witherell	J H Lyon
J W Holman	R Holman
W Scott Ward	H S Allen
L W Gilliland	J J Robinson
Arthur Heintz	T J Johnston

COUCH

Everything here was good natured and pleasant. The regular ticket received 251 and the opposition 31 votes. Tickets were as follows:

Regular	Unpledged
John McCraken	C C Phillips
D M Dunne	F Frost
Wm Gallick	J A Campbell
Geo L Story	J Ring
John D Biles	T Adams

NORTH PORTLAND

The regular ticket received 342 and the other 36 votes. Tickets were as follows:

Regular	Unpledged
Wm Lightner	P Botefuhr
J M Bower	F Fellows
S H Greene	J R Brigham
John Wagner	M Brady
H W Niles	A F DeLin
J D Wilcox	G F Tribou

East Portland Primaries

On the east side two tickets were voted in each precinct, respectively termed by the opposing factions the ring ticket and the kickers. The former generally understood to be in favor of Jordan for sheriff was successful in each precinct except Grant which elects a Sears delegation. The whole east side delegation is probably solid for Sanders for county clerk and the East Portland precinct delegates favor Marye for county surveyor. Following is the result:

NOTICE.

Owing to the continued rush of business we are unable to have our regular Spring Opening, but in order to enable all to have an insight into our mammoth stock and post themselves on the goods as well as the attractive prices, our store will be open on

WEDNESDAY EVENING

FROM 7 TO 9 O'CLOCK,

When our entire Spring Stock will be displayed upon the counters for inspection.

Many elegant novelties have been received within the past week, and more are due now; these goods are disappearing so rapidly that few, other than the purchaser, ever see them; and having advantages which other houses have not for procuring these goods, we desire all to see them that we may receive the credit due us.

Under our new departure we are offering all goods much below the ruling prices, which is well known to many, yet we are anxious that every one should have an opportunity to fully examine our stock and prices, and this, on account of the constant crowd of purchasers, they are unable to do during the day. We have, therefore, set aside the above-mentioned evening, and extend a cordial invitation to all to attend, and at their leisure inspect our stock.

WEDNESDAY MORNING, APRIL 23 1884.

POLITICAL.

NOTES FROM NEW YORK.

NEW YORK, April 22.—[Special.]—The *Tribune* says: "The anti-Arthur victory in New York is complete and conclusive. Of seventy-two delegates sixty-six have been chosen, twenty-four being for Arthur, and forty-two against him. The two district delegates yet to be chosen will probably be for Arthur, but the state convention is absolutely in the hands of his opponents, so that if they choose to exercise their full power he cannot get any of the four delegates at large. The utmost strength, therefore, that he can be sure of is twenty-six in the delegation of seventy-two from his own state."

The *Evening Journal* estimates the republican state convention as follows: Arthur 178, Blaine 119, Edmunds 74, and 10 preferences unknown. Conceding Arthur twenty-one of the Edmunds men who make him a strong second choice, and eight of the doubtful Dutchess delegates, Arthur will have 207. Conceding Blaine twenty-seven Edmunds delegates, who make him second choice, Blaine will have 146. The majority of the convention is 248. Congressional district delegates will stand: Arthur 26, Blaine 33, Edmunds 7. The Edmunds delegates are pronounced against Arthur.

The *Times* this morning has a two-column Burlington, Vermont, special, booming Edmunds. It says: "Here where he is so thoroughly known, Edmunds possesses entire respect and esteem for his kindly manner, unassuming mode of living, democratic tastes and his unapproachableness. The people are justly proud of him. No one in Burlington has ever rated him as possessing more than $100,000, and there is little doubt that this sum will cover all his property."

UNINSTRUCTED.

MANCHESTER, N. H., April 22.—The First district republican convention elected Charles D. McDuffie and Warren Brown delegates to the Chicago convention. They are uninstructed.

BOSTON, April 22.—The fifth congressional district republican convention elected delegates to Chicago unpledged.

HASTINGS, Neb., April 22.—The Second district republican convention elected delegates to the national convention unpledged and uninstructed. Personal preferences are expressed for Blaine. The convention passed resolutions indorsing Arthur's administration, and commended that portion of his last message urging congress to pass judicious railroad regulations. The delegation was instructed for an anti-monopoly plank in the national platform.

SPRINGFIELD, Mass., April 22.—The republican convention in the Eleventh congressional district elected delegates to the Chicago convention to-day. They are uninstructed.

NEW ENGLAND AGAINST BLAINE.

BOSTON, April 21.—[Special.]—The *Journal*, in a careful review of the New England political prospects, declares that Blaine will get no delegates from New Hampshire this year, whereas he had them all in 1880. Vermont is as strong for Edmunds as Maine is for Blaine. In Massachusetts Edmunds is the favorite, and Arthur has many friends in business circles; but the opposition to Blaine is so strong by business men and conservative men that many express a doubt of his ability to carry the state. The indications are that Rhode Island, which was for Blaine in 1880, is opposed to him now.

THE NEW YORK CONVENTION.

UTICA, N. Y., April 22.—There is much speculation as to the outcome of the convention. There are now Arthur, Blaine and Edmunds camps. A conference of Edmunds men, numbering about forty delegates, was held at midnight. They decided under no circumstances to combine with the administration delegates in the preliminary organization. They also decided that they would support any two candidates for delegates at large that Blaine might agree on, provided the latter would permit them to name two Edmunds delegates at large. A committee was appointed to communicate this decision and the committee took a recess.

JUST BEFORE THE BATTLE.

CLEVELAND, April 22.—A great number of the leading republicans of Ohio are here to attend the state convention to-morrow. Opinions differ whether the majority of the delegates will favor Sherman or Blaine. It appears to be the prevailing judgment that the convention will not instruct for anybody. Considerable bitterness is expressed, and it is thought Blaine's friends among the delegates, on arrival at Chicago, will rally to Lincoln, in case Blaine's chances are not bright. There is a strong undercurrent for Lincoln. Representatives of the wool interest are here in force, to urge a wool protective plank in the platform.

FOR ARTHUR.

JACKSON, Miss., April 22.—The republican convention selected delegates from the state at large as follows: Senator B. K. Bruce, James Hill, R. J. Brok and Dr. J. M. Bynum. The first two are colored, and the others white. The delegates are uninstructed, but are favorable to Arthur. It is stated that the delegation from this state stands Arthur, 1; Blaine, 1; Logan, 1; Gresham, 1. The defeat of the Pratt C. McKee delegation is regarded as unimportant, they being supporters of Chalmers.

FOR BLAINE.

EAST SAGINAW, Mich., April 22.—The republican convention in the eighth congressional district elected delegates to the Chicago convention to-day. Their first choice is Blaine, second Edmunds.

ESCONDIA, Ks., April 22.—The republican convention in the fifth congressional district to-day elected delegates to the Chicago convention. F. W. Sturgess was nominated for presidential elector. The resolutions name Blaine as the choice of this district for president, but authorize the delegates to use their discretion in his support.

IN FAVOR OF EDMUNDS.

BOSTON, April 22.—The Seventh district republican convention elected E. H. Haskell and George W. [illegible] delegates to the Chicago convention. They favor Edmunds.

BOSTON, April 22.—The Ninth district republican convention elected as delegates to Chicago, R. H. Bishop and Joseph G. Ray. They are announced to favor Edmunds.

THE LOUISIANA ELECTION.

NEW ORLEANS, April 22.—Up to this hour (midnight) returns have been received but from one precinct in the city. The regular democrats, however, claim they have elected the city ticket, with probably a few exceptions of representatives or councilmen. They also claim that their state ticket is elected. The vote in the city was very light. The election passed off quietly.

TILDEN NOT A CANDIDATE.

ALBANY, N. Y., April 22.—A party of leading democrats and friends of Tilden, who left Greystone to-day, say that under no circumstances will he be a candidate for the presidency, and under no circumstances will he accept if nominated. They regard this last refusal as final.

LEGISLATURE ADJOURNED OVER.

ALBANY, April 22.—By a party vote, the legislature adjourned over until after the republican state convention at Utica. Twenty-eight members of the assembly are delegates. The meeting of the democratic committee, which was called for Thursday, has been postponed until May 21.

DELEGATES SLOWLY ARRIVING.

UTICA, N. Y., April 22.—But few delegates to the republican convention which meets to-day had arrived up to last evening, and none of Arthur managers. Senator Warner Miller is expected to-day.

ARTHUR'S FRIENDS IN CONTROL.

JACKSON, Miss., April 22.—Arthur's friends seem to be in control of the republican executive committee which has been in session most of the day. The state convention will convene to-morrow.

THE PROHIBITIONISTS.

TRENTON, N. J., April 22.—The prohibition state convention to-day elected delegates to the national convention at Pittsburg in July next, and adopted the usual resolutions.

AUSTRIA.

NOTORIOUS MURDERERS HANGED.

VIENNA, April 22.—Hugo Schenck and Karl Schlossarek, notorious murderers of servian girls, were hanged to-day. Schenck professed to be a freethinker, and asked that a philosopher instead of a priest might be sent to consult with him, but he afterward partook of the sacrament and prayed with the priest throughout the night. Karl Schenck, a brother of Hugo, who was also implicated to a certain extent with Hugo and Schlossarek in the murder league, has been incarcerated for life.

Schlossarek was hanged first. His countenance was pale; he trembled visibly and was scarcely able to stand, presenting a piteous appearance. He cursed Schenck. Just before the rope was placed around his neck he became unconscious. The struggle lasted eight minutes. Schenck's execution followed. He walked to the scaffold with an elastic step, and his face wore a smile. He kissed the priest and sent his love to his wife. He died in less than three minutes. His corpse looks like a man in a peaceful sleep. Schlossarek's features are horribly distorted.

A FEARFUL AND FATAL PANIC.

VIENNA, April 22.—During the performance in Sidoli's circus, at Bucharest last evening, the roof of the structure fell in. The lights were extinguished and a terrible panic ensued, which was increased by an outbreak of fire. Five dead bodies and one hundred wounded have been carried from the ruins. A large number of persons are missing.

WOUNDED BY HIS OWN BOMB.

CRACOW, April 22.—While the chiefs of police were in the court house to-day a bomb, intended to enter the building through the window, fell outside and exploded. No damage was done to the building. The person who threw the bomb was wounded, and was promptly arrested.

PRISON REVOLT.

VIENNA, April 22.—There was a revolt to-day in the prison at [illegible], in which are confined a number of educated persons, convicted of minor offenses. The outbreak was suppressed by the military, after much bloodshed. Thirty prisoners were wounded, seven severely.

CANADA.

MANITOBA'S GRIEVANCES.

WINNIPEG, April 22.—In the legislature to-day Norquay introduced a resolution declaring it to be absolutely necessary for the requirements of the province that a readjustment of the capital account and financial status be made at once, and that a delegation consisting of the speaker and two members of the executive council proceed to Ottawa, and procure from the government the rights claimed.

ITALY.

RECEIVED INTO THE CATHOLIC CHURCH.

ROME, April 21.—Countess Geannetti, a well known American resident, was received into the Catholic church to-day. The Duchess Wassimo and Princess Vicovaro were sponsors. Cardinal Howard officiated.

MALTA.

THE DYNAMITE IN THEIRS.

MALTA, April 22.—The Italian consul proposed to land 400 cases of dynamite from an Italian vessel in the harbor, and deposit it in the government store house. The government has refused to allow this, and ordered the vessel to leave within forty-eight hours.

SCOTLAND.

BELMONT CASTLE BURNED.

EDINBURGH, April 21.—Belmont castle, near Dundee, burned last night. Many valuable paintings were destroyed.

GERMANY.

THE EMPEROR'S BAD HEALTH.

PARIS, April 22.—*Francaise*, a newspaper, says the emperor of Germany shows continued signs of somnolence and other grave symptoms which cause serious alarm.

IN WALL STREET.

The Bulls Control the Market—A Sharp Advance being Scored.

NEW YORK, April 22.—Governments, unchanged. Railways, stronger. Stocks, stronger, on reports that the negotiations for a settlement of the railway difficulties are progressing favorably. At the opening there was a fractional advance, rapidly followed by a decline of ¼ to ¾ per cent. in the general list, and 1 per cent. in Portland. Before 11 A. M. the market again advanced, but in the afternoon Union Pacific broke to 66, on the announcement from Washington that the house Pacific railroads committee had agreed upon a bill amending the Thurman act, which brings the Kansas Pacific within the provisions of the act. The break in Union Pacific carried the remainder of the list down ¼ to 1¼ per cent. Near the close there was a complete change for the better, and the market displayed considerable strength. Union Pacific rose to 67¾, Pacific Mail to 46⅞, and Northern Pacific preferred to 48¼. Pacific Mail advanced on the official statement that the net earnings for March, which were $117,17[illegible], were the largest for that month for fully ten years. The market closed strong.

Compared with yesterday closing prices are ¼ to 3 per cent. higher.

The *Post* says to-day: "As yesterday was a complete reversal in the afternoon of the tendency of prices in the forenoon, and this afternoon there was even more activity on the part of the bears to cover than yesterday, the sharp turn in the last hour to-day left twenty-eight of the thirty-eight stocks most actively traded in higher than at the close last night."

MONEY, BONDS AND STOCKS.

NEW YORK, April 22.—Money, 1½@2, closed offered 2. Prime mercantile paper, 5@5½; sterling exchange, bankers' bills, steadier at $4 87½; sterling exchange, demand, $4 89½.

THE FLAG OF A FRIENDLY GOVERNMENT

The United States so Recognizes the Colors of the African International Association.

WASHINGTON, April 22.—The injunction of secrecy was removed to-day from the resolution adopted by the senate, in executive session, April 10, authorizing recognition of the African International Association, which is now opening up to commerce the valley of the Congo. The resolution is as follows:

In executive session of the senate of the United States, April 10:

Resolved, That the senate concur in the view expressed by the president of the United States, in his last annual message to congress, in reference to the interests of the United States in the settlement of the Congo country in Africa, and in opening that country to the free access of the people and the lawful commerce of all other countries; and that it is the opinion of the senate that the flag of the African International Association should be recognized as the flag of a friendly government.

In view of the action of the senate in this matter, Henry S. Sanford, of the African International Association, to-day executed and delivered to the secretary of state an official declaration of the objects and purposes of the association, and Secretary Frelinghuysen, by direction of the president, made the following official announcement:

Frederick T. Frelinghuysen, secretary of state, duly empowered by the president of the United States of America, and pursuant to the advice and consent heretofore, acknowledges the receipt of the foregoing notification from the international association of the Congo, and declare that in harmony with the traditional policy of the United States, which enjoins a proper regard for the commercial interests of their citizens, while at the same time avoiding interference with controversies between other powers, as well as alliance with foreign nations, the government of the United States announces its sympathy with and approval of the humane and benevolent purposes of the association of the Congo, and will order officers of the United States, both on land and sea, to recognize the flag of the International African Association as the flag of a friendly government.

FREDERICK T. FRELINGHUYSEN.

CRIMINAL CALENDAR.

WHEREABOUTS UNKNOWN.

ST. LOUIS, April 22.—Frank Ewene, cashier of the Effingham, Illinois, bank which closed yesterday in consequence of the absconding of its president, F. N. Vongassy, says there were over $40,000 in the bank when he opened it Monday morning. Every dollar is gone, as well as all the books, papers, etc. The absconder's whereabouts is still unknown.

CHICAGO, April 22.—*Daily News'* Effingham, Ill., special: F. A. Vongassy, the absconding banker who left here Saturday night, went to Chicago, and, it is supposed, has gone to Canada. He took all the money and securities in the bank, amounting to about $40,000. The heaviest loser is Joseph Partridge, a merchant, who is out about $10,000. The remainder is distributed in smaller sums among business men in the surrounding farming community.

ANOTHER HORRIBLE TRAGEDY.

NASHVILLE, April 22.—Last Saturday night, a week ago, Meyer Friedland, a Russian Jew peddler, was murdered in a mysterious manner in the hallway of his house in Black Bottom. The doors, leading to the hall, were propped with irons weighing nearly 75 pounds each, to prevent his family from coming to his aid. After being felled, he was literally cut to pieces with a hatchet and large knife. The only clew was foot steps in blood. To-day he died, and last night detectives arrested two of his brothers, his wife, and a negro. The police claim to have positive evidence against them. He was a member of a benevolent society, and had $2500 life insurance. His wife is thought to be implicated. The prisoners are carefully guarded as they will be lynched if they can be got.

JOSEPH ALLEN, THE SUSPECTED MURDERER.

JACKSON, Mich., April 22.—A detective has, for some days, been shadowing Joseph Allen, pretending to be a cook, and induced him to give him certain particulars of the Crouch murder, which Allen afterwards regretted, and becoming suspicious of his companion he went to Canada. About four days ago the detective obtained from Allen the whereabouts of buried papers, which were afterwards recovered. A late dispatch from Hamilton, Ontario, says Joseph Allen was arrested last night, on a charge of being the principal in the Crouch murder at Jackson, Michigan, last fall, and taken back to Jackson last night.

A BIG TRIAL IN SICILY.

NEW YORK, April 22.—[Special.]—The most colossal criminal trial of modern times was to have begun to-day at Catania, in Sicily. Three hundred prisoners were to be put on trial on charges of being members of the Mafia secret society, which has long been the most dangerous of secret orders, and supposed to combine brigandage with anarchists. Many of the prisoners are wealthy and influential, and 112 lawyers have been engaged for their defense. The government has no public building big enough for the trials, and was obliged to postpone them till June.

THE JAMES TRIAL.

CHATTANOOGA, April 22.—In the Frank James trial at Huntsville, Alabama, to-day, W. H. Spain testified that in 1881 he lived about a quarter of a mile from Woods (Frank James); he knew him well; saw him at Nashville March 18, 1881, the day of the Muscle Shoals robbery. Jack Smith, a negro, testified to seeing James at Nashville March 8, 15 and 11, fixing the first date by the date of a warrant he served on that day; he met James. Martin and Brewer, he saw James at the magistrate's trial at Nashville, on March 11. Robert Dale confirmed Spain's testimony.

MURDERED HIS WIFE.

BOSTON, April 22.—This afternoon James Nicholson entered his wife's room. Shortly afterward the report of a pistol was heard. A brother of Mrs. Nicholson rushed to the room, and found that Nicholson had shot her through the shoulder. He grappled with Nicholson, but was unable to prevent him from shooting his wife the second time, killing her instantly. The murderer then coolly put aside his pistol, remarked, "I am a murderer," and left the house. He has not yet been captured.

POLICE OFFICER MURDERED.

NEWPORT, R. I., April 22.—Police officer Eugene Barker was fatally shot by William Shay, a young and notorious desperado, this morning while endeavoring to arrest Shay, who was quarreling with a companion named Anderson. Shay then pursued Anderson, and fired three shots at him, one of which hit Anderson in the body. The latter succeeded in disarming Shay. Both men were arrested. Shay was arrested.

A MURDERER HANGED.

GETTYSBURG, Pa., April 22.—John Coyle was hanged at 11:25 this morning, for the murder of Emily Myers, May 30, 1881. Up to Saturday Coyle maintained an attitude of comparative indifference, but the noise made in erecting the scaffold in the jail yard seemed to excite him terribly, and his spiritual advisers had to be called in.

A DISCREPANCY DISCOVERED.

ST. PAUL, April 22.—William Harder, assistant traffic manager of the Canadian Pacific railway, has resigned, at the request of the general manager. A variation of $200,000 has been discovered between the Canadian Pacific books and the customs accounts, that occurred prior to 1883. It is not known who is responsible, but the minister of customs will probably investigate the matter.

DUEL BETWEEN DESPERADOES.

RICHMOND, Ky., April 22.—Near Irving, last Saturday, Joe Flynn and Bill Hale, two desperadoes, engaged in a shooting affray. Flynn shot Hale through the heart, but before Hale fell he shot Flynn twice, from the effects of which he died in a few hours.

WOMEN AS JURORS.

TO THE EDITOR OF THE OREGONIAN:

Your correspondent, "Common Decency," abuses the sheriffs of Washington territory for "impaneling" women jurors in such coarse language as, "the baser sort," "beastly instincts," "devoid of the contactless instincts of manhood," etc. As I understand it the sheriffs simply performed a ministerial duty in summoning jurors, the lists being placed in their hands by the proper officer. Your correspondent is also mistaken in assuming that the constitution of Oregon would require to be amended before women could be made subject to jury duty. An act of the legislature only would be required. "Common Decency" avers that the "true men of Oregon will never so befoul their constitution" as to make women subject to jury duty. That "befoul" may be "common decency," but it is not complimentary to women.

Like most of the advocates of woman suffrage this correspondent says that its success "draws nigh." I wish to put on record the prediction that after the June election not a county in the state will be found to have given the amendment a majority of the votes cast, and that throughout the state not one fifth will be cast for the amendment. Of those who in the legislature voted to submit it, not one in ten were for the measure or will support it at the polls.

TRADE AND COMMERCE.

TUESDAY, April 22.

Generally quiet markets rule to-day, but there is an excellent goods movement. A small failure is reported from Coeur d'Alene, the first from that section. The two or three recent failures at Sound points are attributed to pressing San Francisco creditors, who are losing their grip in that section. Portland merchants report an increase which cannot but lessen California's trade.

The Br bark Norseman came in to-day in a passage of 151 days from Liverpool. She brings an assorted cargo of tin plate, pig iron, chemicals, mineral water, grain bags, salt, etc., to Balfour, Guthrie & Co. She will discharge about 600 bxs tin at Astoria.

The Br bark City of Carlisle sailed to-day for Queenstown with 28,688 ctls wheat, valued at $42,841, shipped by C. Caesar & Co. for owner's account.

Overland receipts include 10 tcs hams, 150 cs lard, 2 cs sardines, 25 cs lye, 10 tcs butterine, 105 tubs butter, 1 bbl sugar, 2 chests tea, 6 cs cheese, 10 cs codfish, 25 cs can meat, 185 cs can goods, 10 cs candy, 4 cs cigarettes, 8 cs cigars, 374 pkgs tobacco, 100 bbls bottled beer, 200 cs coal oil, 25 kegs nails.

PRODUCE RECEIPTS—Past 24 hours: 4175 ctls wheat, 2114 qr sks flour, 78 ctls oats, 118 sks potatoes, 500 lbs wool, 1280 dry hides, 61 cs eggs, 53 bls hay. Also 1,325 ctls wheat, 270 bbls flour, 18,375 lbs wool, 1215 lbs hides from the eastern section.

EXPORTS—Per State of California to San Francisco: 600 hf sks Prescott 13 458 hf sks Salem flour, 236 sks onions, 101 sks flax seed, 1107 sks potatoes, 3 bdls calfskins, 30 casks tallow, 14 bls deerskins, 2 bls fire, 70 gr 150 dry hides, 16 bls sheepskins, 8 cs cassimeres, 2 cs flannels, 3 bls blankets, 3 sks hair, 43 bdls hazel hoops, 1212 sks copper ore, 16 pcs 35 bdls scrap iron, $12,750 treasure.

FREIGHTS—A large iron ship has been taken to load Oregon flour at San Francisco at 32s 6d for orders. This is relatively very close to late asking rates from this port, yet furnishes ample working scope to the shipper. Our tonnage in port is added to by the arrival of the Norseman. Her cancellation date for arrival has passed, and as far as can be learned she will doubtless be on the market for charter. The number of vessels near at hand is reduced to three, one of which is known to be chartered for grain.

WHEAT—Only the foreign advices to-day show any strength, all home markets being unsettled and more or less weak. Chicago options are off 2 cents. Operations in the local market are confined to parcels for milling purposes. The reported sale of 2000 bushels at $1 41 is disputed by holders. It is claimed that mills are still offering basis of $1 47½ here at points along the east side, and an interior operator says a half cent more was paid at Halsey. A large lot of valley came in yesterday from Corvallis on old account. Receipts from the eastern section are large, but no new business is reported. Stocks here are accumulating and vessels now in berth will not remove them.

FLOUR—To-day's steamer took out 7029 barrels. The market presents no new feature.

POTATOES—Market considered less firm, but old prices are maintained.

EGGS—Arrivals last night exceeded expectations and to-day 19@20c were ruling prices.

POULTRY—All kinds considered steady at late prices.

BUTTER—More eastern coming in and the market promises to be overstocked for some time.

SHIPPING NOTES.

The State of California sailed at 12:35 A. M., with 1075 tons of freight.

Brit Lizzie Bell, hence December 16 with 37,520 ctls wheat shipped by Balfour, Guthrie & Co., has arrived out in a passage of 127 days.

A number of the Pacific coast grain fleet are reported out to-day.

The Charles Cotesworth has hauled up to Flanders'.

Work on the Alaskan is being pushed. Captain John Wolf will take command, but some six weeks will be required to finish her up previous to going on the lower river route. Engineer Thomas Smith took charge of the engine room the day after the boat arrived.

The vessel reported taken to load salt at Carmen is said for this port is the German bark [illegible], but later information considers her destination uncertain. The schooner Twilight loads for San Francisco.

Br bk Scottish Prince, hence December 2 with 37,657 ctls wheat shipped by the Oregon City mills, has arrived out in a passage of 141 days.

The Jorsalfarer has completed discharge of Victoria cargo, and sails for this port this week.

Capt. A. M. Hart of Dalton is in the city. He is outlooking at the O. R. & N. Co.'s boats and tugs.

Last advices report the Quickstep as sailing for Victoria.

PUBLIC MEETING OF COLORED CITIZENS.

Pursuant to notice as in the daily papers the colored citizens of this city met at the hall of the Portland club last evening. A. Ferguson was elected president and Robert Vass secretary. The following preamble and resolutions were adopted:

WHEREAS, The want of union and harmony of action on the part of colored voters of the city of Portland, Multnomah county, in the past has materially conduced to their comparative isolation, and want of recognition, politically; their divisions and antagonisms have weakened their strength and lost for them, in part, the respect of their friends and fear of enemies; therefore,

Resolved, That we, a portion of the colored citizens of Portland and Multnomah county, in behalf of the whole, will organize ourselves in a political club for the purpose, as far as in our power, of uniting and combining our future political action to the extent that it may be felt for or against friend or foe and thereby win the respect of both.

A committee of three was appointed to draft a constitution and by-laws for the government of the club. The meeting adjourned to meet on Wednesday evening, the 30th inst.

THE EAST SIDE.

The boy Johnny Ross, who was kicked by a horse, appears to be progressing favorably.

A democratic mass meeting is announced for Thursday evening next at the council chamber for the purpose of organizing for the coming campaign.

Dr. Caples, the democratic war horse of St. John's, will address the citizens of East Portland from the porch of the East Portland hotel at the foot of L street next Saturday evening.

CARD OF THANKS.

The family of R. R. Story desire to express their sincere thanks to their friends for their generous sympathy and assistance during his sickness and at the time of his death.

Chronic constipation is the national curse of Americans. Cure it with Ayer's Cathartic Pills.

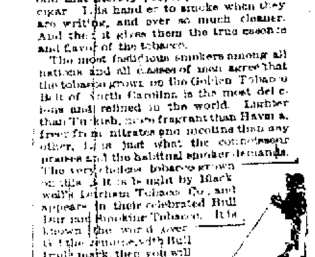
When you come to think of it, it is not odd that literary people prefer a pipe to a cigar. It is handier to smoke when they are writing, and ever so much cleaner. And then it gives them the true essence and flavor of the tobacco.

The most fastidious smokers among all nations and all classes of men agree that the tobacco grown on the Golden Tobacco Belt of North Carolina is the most delicious and refined in the world. Lighter than Turkish, more fragrant than Havana, freer from nitrates and nicotine than any other, it is just what the connoisseur praises and the habitual smoker demands. The very choicest tobacco grown on this Belt is bought by Blackwell's Durham Tobacco Co., and appears in their celebrated Bull Durham Smoking Tobacco. It is known the world over. Get the genuine, with Bull trade mark, then you will be sure of having absolutely the best.



Corresponds a desirable relief in bilious and liver complaints, weak digestion, stoppage of [illegible] irritability.
